Featured Solution LUMISIGHT

LumiSight is a flexible, end-to-end, pre-engineered platform that increases speed-to-delivery. It is a business accelerator that our clients use for:

- Enterprise integration and cloud modernization
- Rapid application development
- Analytics
- COVID-19
 - Vaccine and testing management
 - Lab integration
- Scheduling and event management
- Portals

Past Projects

State of Hawaii Department of Labor and Industrial Relations Disability Compensation Division (DCD)

Project: Web-Accessible Case Management System with Auditing and Financial Tracking (Phase 1: ECMS Foundation and Notes Migration and Phase 2: DCIS Migration)

Contract amount: \$9,600,000

Accomplishments: Developed, tested, installed, trained, and documented an integrated, web-accessible, electronic Case Management System that incorporates Workers' Compensation, Temporary Disability Insurance, and Prepaid Health Care programs.

State of Hawaii Department of Education (DOE)

Project: electronic Comprehensive Student Support System (eCSSS)

Contract amount: \$30,699,734

Accomplishments: Developed and supports eCSSS, which manages student records and educational services and tracks disciplinary actions. eCSSS helps DOE comply with federal and state laws and legal consent decrees for special education students.

National Kidney Foundation of Hawaii

Project: Mobile Testing Lab

Contract amount: \$2,987,273

Accomplishments: Integrated multiple applications and databases to capture and process trip and traveler information, pre-arrival test lab results, post-arrival test registration and lab information, health surveillance, and quarantine enforcement capability.
